MOBILE, SIMPLE & SMART EICKVIEW COMPACT SET

Our devices are designed with the needs of veterinary surgeons in mind. Due to its small diameter and integrated working channel, the specially developed EickView Compact Endoscope provides the perfect solution for rhinoscopy, tracheoscopy and vaginoscopy in small animals.

Intelligent Fusion

Fusion of endoscope and sheath creates a homogenous and minimal invasive distal end.

Clear View

Minimal dirt at distal end.

Easy access

Small diameter enables easy access to most orifices.

High Mobility

Independent operating principle through attachable LED battery light source.

Total control

Integrated working channel and filigree foreign body forceps enable rapid foreign body extractions.

“The EickView Compact Set provides veterinarians with everything that is needed to perform an easy, fast and safe foreign body extraction.”

innovative

ENDOSCOPY EICKVIEW COMPACT SET
