EickView LED Video Endoscopes for horses

The EickView E endoscope range is the perfect solution for examination of the upper respiratory tract in horses. The powerful LED light source and the high-resolution camera of this stand-alone system are integrated in the distal end of the scope. The user-friendly EickView E endoscopes deliver brilliant digital images e.g. of the sinuses or the guttural pouches. The 2.8 mm working channel and the scope length make it ideal for performing biopsies and tracheal washes with ease.

Technical Specifications

- ▶ Diameter: 8.0 mm
- ▶ Working channel: Ø 2.8 mm
- ▶ Depth of field: 5 – 80 mm
