

## Veterinary Ophthalmology Catalogue

## Starter Ophthalmic Kit

This instrument kit provides fundamental equipment for veterinary ophthalmic procedures including eyelid, third eyelid and eyelash surgery, conjunctival and corneal cytology / biopsy and enucleation. The kit has been reviewed and approved by DipECVO MRCVS RCVS and EBVS® European specialists in Veterinary Ophthalmology.

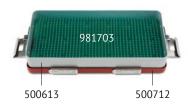

ltem No.		Length mm
171220	Complete Set, consisting of:	
101780	Guarded Scalpels <ul> <li>Size 15</li> <li>Pack of 10 pieces</li> </ul>	150
170008	CASTROVIEJO Eye Speculum	80
118111	STRABISMUS Scissors • Very fine • Blunt/blunt • Curved	115
132812	ADSON Tissue Forceps • Delicate • 1 x 2 teeth	120
171807	ST. MARTINS Forceps • 1 x 2 teeth • Width of the tip: 0.5 mm	90
171522	DESMARRES Chalazion Forceps <ul> <li>Size 2</li> </ul>	90
172514	CASTROVIEJO Needle Holder • With Lock • Curved	140
152612	OLSEN-HEGAR Needle Holder (TC) • With scissors section for cutting sutures	120
171712	LANDOLT Enucleation Scissors <ul> <li>Curved</li> </ul>	130
170331	KUHNT Corneal Scraper	135
170004	BARRAQUER Eye Speculum	40
141109	2x HARTMANN Artery Forceps • Curved	100
141009	2x HARTMANN Artery Forceps • Straight	100
110811	STEVENS Tenotomy Scissors <ul> <li>Straight</li> <li>Blunt/blunt</li> <li>Fine</li> </ul>	110
172120	WESTCOTT Scissors <ul> <li>Curved</li> <li>Blunt</li> </ul>	110
500613	Instrument Box Base • Dimensions (in cm): L 30 x D 14 x H 3	
500714	Instrument Box Lid <ul> <li>Perforated</li> <li>With textile filter and label holder</li> <li>Colour: green</li> </ul>	
981703	<ul> <li>Fingered Silicone Insert</li> <li>Sterilisable</li> <li>Dimensions (in cm): L 27.5 x D 12.5 x H</li> </ul>	H 1.0

## Advanced Ophthalmic Kit

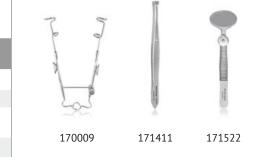

This instrument kit provides the necessary instrumentation for a veterinary surgeon to perform corneal, conjunctival and intraocular procedures.

The kit was created in collaboration with a diplomat from the European College of Veterinary Ophthalmology.

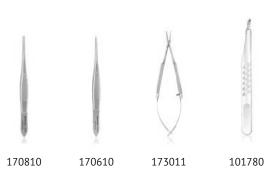

ltem No.		Length mm
171230	Complete Set, consisting of:	
170512	CASTROVIEJO Cyclodialysis Spatula <ul> <li>Dual-ended</li> </ul>	150
170464	WEBER Wire Loop	130
101710	BEAVER Scalpel Handle <ul> <li>Finger lock grip</li> </ul>	100
172111	CASTROVIEJO Corneal Scissors <ul> <li>Curved, right</li> </ul>	100
172110	CASTROVIEJO Corneal Scissors <ul> <li>Curved, left</li> </ul>	100
173011	BARRAQUER Needle Holder <ul> <li>Curved</li> </ul>	110
171510	TÜBINGEN Suture Forceps	100
171105	BARRAQUER Colibri Forceps • Tip width: 0.5 mm, tip curve: 45°	70
171503	CASTROVIEJO Suture Forceps • Tip width: 0.3	100
110911	STEVENS Tenotomy Scissors <ul> <li>Fine</li> <li>Curved</li> </ul>	110
171309	ARRUGA Capsule Forceps	100
170340	JAMESON Strabismus / Muscle Hook	135
500613	Instrument Box Base • Dimensions (in cm): L 30 x D 14 x H 3	
500712	Instrument Box Lid <ul> <li>Perforated</li> <li>With textile filter and label holder</li> <li>Colour: red</li> </ul>	
981703	Fingered Silicone Insert <ul> <li>Sterilisable</li> </ul>	

110811

170340

## Mini Ophthalmic Kit

This kit contains the basic equipment for veterinary ophthalmic surgery on the eyelid.

ltem No.		Length mm
171210	Complete Set, consisting of:	
170009	GRÄFE Eyelid Retractor	90
171411	GRÄFE Fixation Forceps • With Pin	110
171522	DESMARRES Chalazion Forceps • Size 2	90
110811	STEVENS Tenotomy Scissors <ul> <li>Fine, blunt/blunt, straight</li> </ul>	110
170810	GRÄFE Iris Forceps • 1 x 2 teeth, straight	100
170610	GRÄFE Iris Forceps • Straight	100
173011	BARRAQUER Needle Holder <ul> <li>Curved</li> </ul>	110
101780	Guarded Scalpels <ul> <li>Size 15</li> <li>Pack of 10 pieces</li> </ul>	150

## SuperCut Scissors (MC)

- Designed with micro-fine serrations on one blade to prevent soft tissue slipping while the opposing razor sharp blade cuts with minimal tissue trauma
- German stainless steel construction and blade design allows for a much longer working life before sharpening is required
- Ergonomically designed ring handles improve instrument control, provide a better feel when dissecting tissue and help reduce hand fatigue

ltem No.		Length mm	Form	
118309	SuperCut Iris Scissors (MC)	90	straight	
118310	SuperCut Iris Scissors (MC)	90	curved	
118311	SuperCut Iris Scissors (MC)	115	straight	
118312	SuperCut Iris Scissors (MC)	115	curved	

## **Iris Scissors**

- Ideal for general and ophthalmic surgery
- Delicate cutting for precision work

ltem No.		Length mm	Form	
110609	Iris Scissors	90	straight	
110709	Iris Scissors	90	curved	
110611	Iris Scissors	110	straight	
110711	Iris Scissors	110	curved	
110011	Iris Scissors (TC) • EICKEMEYER® Lifetime Warranty	115	straight	
110111	Iris Scissors (TC) • EICKEMEYER® Lifetime Warranty	115	curved	

## **STEVENS Tenotomy Scissors**

- Designed with a long shank to blade ratio, which helps provide a steady grip while maintaining greater precision cutting
- Very useful in small confined areas

ltem No.		Length mm	Form	
110811	STEVENS Tenotomy Scissors • Fine • Blunt/blunt	110	straight	
110911	STEVENS Tenotomy Scissors • Fine • Blunt/blunt	110	curved	
111011	<ul> <li>STEVENS Tenotomy Scissors</li> <li>One blade with a button tip</li> <li>Blunt/sharp</li> </ul>	115	straight	

## **METZENBAUM Scissors**

- Many surgeons prefer METZENBAUM scissors because of their longer shank to blade ratio, which provides greater control
- These scissors are suitable for cutting through delicate tissues • For surgeons who make heavy demands of their instruments we recommend the tungsten carbide version

ltem No.		Length mm	Form	
118011	METZENBAUM Scissors	115	straight	
118111	METZENBAUM Scissors	115	curved	
116011	METZENBAUM Scissors (TC)	115	straight	
116111	METZENBAUM Scissors (TC)	115	curved	

118011

## **LANDOLT Enucleation Scissors**

Curved scissors designed with blunt tips to assist in the dissection of the optic nerve and surrounding tissue from the eyeball.

Item N	No.	ength mm	Form
17171	.2 LANDOLT Enuclea Scissors		:urved

## **CASTROVIEJO Scissors**

- Designed with fine tips and a double leaf spring mechanism for self-opening action
- The ridged handle and guide pin enhances instrument control

ltem No.		Length mm	Form	
171710	CASTROVIEJO Iridectomy Scissors • Sharp/sharp	100	curved	
172111	CASTROVIEJO Corneal Scissors	100	curved, right	
172110	CASTROVIEJO Corneal Scissors	100	curved, left	

## **VANNAS Cataract Scissors**

- Designed with extra thin angled blades and a double leaf spring mechanism for self-opening action
- The ridged handle enhances instrument control

Item No. I	_ength mm	Form
172208 VANNAS Cataract Scissors • Sharp/sharp		curved

## WESTCOTT Scissors

- Designed with curved blades and double leaf spring mechanism for self-opening action
- Useful for cutting delicate tissue

ltem No.		Length mm	Form	
172120	WESTCOTT Scissors • Blunt/blunt	110	curved	

## **ARRUGA Capsule Forceps**

Designed with downward curving tips at a  $45^\circ$  angle and ridged linear grip to enhance instrument grip.

ltem No.		Length mm
171309	ARRUGA Capsule Forceps	mm 100

## **GILL-ARRUGA Capsule Forceps**

Designed with a fine down curving pointed tip and ridged linear shank for a comfortable grip. This instrument is suitable for the handling of delicate ocular tissues. Capsule forceps are usually suitable for removing the capsule and are also used to open the capsule.

	Length mm
GILL-ARRUGA Capsule Forceps	75
	GILL-ARRUGA Capsule Forceps

## HESS Capsule Forceps

Opposing surfaces have a row of fine teeth with fine double curving pointed tips and ridged shank to enhance grip. Capsule forceps are usually suitable for removing the capsule and are also used to open the capsule.

ltem No.		Length mm
171306	HESS Capsule Forceps	65

## **BISHOP-HARMON Iris Forceps**

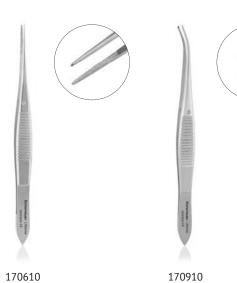

The flat, straight and smooth shank with 3 holes provide excellent grip. For grasping eyelids or conjunctiva.

ltem No.		Length mm		
171108	BISHOP-HARMON Iris Forceps • 1 x 2 teeth • Width: 0.5 mm	85		

170610

## Designed with a ridged shank and guide pins for excellent instrument grip / control. For grasping eyelids or conjunctiva during surgery.

**GRÄFE Iris Forceps** 

ltem No.		Length mm	Form	
170610	GRÄFE Iris Forceps	100	straight	
170710	GRÄFE Iris Forceps	100	curved	
170810	GRÄFE Iris Forceps • 1 x 2 teeth	100	straight	
170910	GRÄFE Iris Forceps • 1 x 2 teeth	100	curved	

## **HESS (Colibri) Iris Forceps**

Designed for holding flaps of cornea or sclera and a ridged shank for improved instrument grip. For grasping eyelids or conjunctiva during surgery.

Item No.		Length mm
171007	HESS (Colibri) Iris Forceps <ul> <li>1 x 2 teeth</li> </ul>	70

## BARRAQUER (Colibri) Forceps

Designed with ridged, long, straight and flat shank with long holes on each side.

ltem No.		Length mm		
171105	<ul> <li>BARRAQUER (Colibri) Forceps</li> <li>1 x 2 teeth</li> <li>Tip width: 0.5 mm</li> <li>Tip curve: 45°</li> </ul>	70		

## BARRAQUER-KATZIN (Colibri) Forceps

Designed with ridged, straight and flat shank to enhance instrument grip.

ľ	tem No.		Length mm	
1	171107	<ul> <li>BARRAQUER-KATZIN (Colibri) Forceps</li> <li>Tip width: 0.12 mm</li> <li>Tip angle: 90°</li> <li>Interdigitating teeth</li> </ul>	70	

## CASTROVIEJO Suture Forceps

Designed with straight shaft tips with extremely delicate teeth and a 5.5 mm tying platform.

ltem No.		Length mm
171503	CASTROVIEJO Suture Forceps Tip width: 0.3 mm	100
171505	CASTROVIEJO Suture Forceps • Tip width: 0.5 mm	100

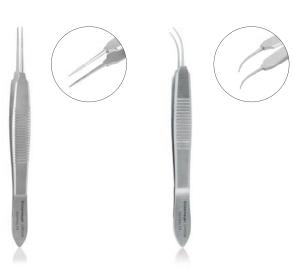

171503

## ST. MARTIN Corneal Forceps

Very fine toothed forceps used in handling cornea.

ltem No.		Length mm		
171807	ST. MARTIN Corneal Forceps • 1 x 2 teeth • Width of the tip: 0.5 mm	mm 90		

172035

1	7	1	5	1	0
-	1	-	2	-	υ

tem No.		Length mm	Form
171510	<ul> <li>TÜBINGEN Suture Forceps</li> <li>Without teeth</li> <li>6.5 mm platform</li> <li>With thread plates for threading</li> </ul>	100	straight
172035	<ul> <li>HARMS Thread Forceps</li> <li>Without teeth</li> <li>6 mm platform</li> <li>For threads from 7-0 to 9-0</li> </ul>	100	curved

## BARRAQUER Needle Holders

ltem No.		Length mm	Form	
173011	BARRAQUER Needle Holder	110	curved	
173012	BARRAQUER Needle Holder	130	curved	

## BARRAQUER-TROUTMAN Needle Holder

- Ideal for fine suturing in the anterior chamberRound knurled ridged handles with an automatic locking mechanism

ltem No.		Length mm	Form	
173010	BARRAQUER-TROUTMAN Needle Holder	100	curved	

## Ideal for fine suturing in the anterior chamber Round knurled ridged handles Without lock

T 020 8891 2007 | info@eickemeyer.co.uk | www.eickemeyer.co.uk

## **BOYNTON Needle Holder (TC)**

- Designed with cross-serrated jaws to firmly hold needles and a single spring mechanism for self-opening action
- A multi-position ratchet provides controlled grip pressure and smooth grip release

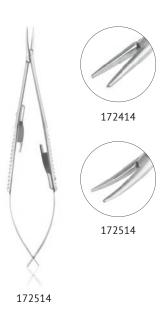

ltem No.		Length mm	Form
173112	BOYNTON Needle Holder (TC)	120	straight

## CASTROVIEJO Needle Holders

- The ridged handles help enhance instrument grip and control
- Double leaf spring mechanism
- Locking mechanism

ltem No.		Length mm	h Form	
172414	CASTROVIEJO Needle Holder	140	straight	
172514	CASTROVIEJO Needle Holder	140	curved	

## **DOUGLAS Cilia Forceps**

Designed with fine horizontal serrations that help correct abnormal growth of lashes from the posterior lamella (e.g. distichiasis).

ltem No.		Length mm
170309	DOUGLAS Cilia Forceps	90

## **GRADLE Cilia Forceps**

- Suitable for correcting abnormal growth of lashes from the posterior lamella (e.g. distichiasis)
- Smooth, squared off positive gripping jaws
- Double leaf spring mechanism

ltem No.		Length mm
170310	GRADLE Cilia Forceps	95

## **GRÄFE Fixation Forceps**

Jaws are designed with interdigitating teeth to provide a firm grip on eyelashes. To fix the eyelid during surgery or to hold tissue in place.

ltem No.		Length mm
171411	GRÄFE Fixation Forceps • With pin	110
171412	GRÄFE Fixation Forceps • With lock	110

## **DESMARRES** Chalazion Forceps

Chalazion or entropion forceps are a surgical ophthalmic instrument used to hold, manipulate, squeeze, pull or bind ocular tissue or surrounding tissue during a surgical procedure.

Designed with a solid lower plate and an open upper plate
A locking thumb screw allows both hands to be kept free

ltem No.		Length mm
171522	DESMARRES Chalazion Forceps • Size 2	90

## **KNAPP Conjunctiva Forceps**

Thumb forceps with a grooved handle and large apertures to help grasp the conjunctiva.

Item No.		Length mm
171611	KNAPP Conjunctiva Forceps	110

## **STADES Nicitating Forceps**

- Thumb forceps with two locking mechanisms designed specifically for third eyelid surgery
- Lower plate is solid and the upper plate is semi-curved

ltem No.		Length mm
171609	STADES Nicitating Forceps	95

## CASTROVIEJO Cyclodialysis Spatula

Designed with a smooth, straight, flat, delicate handle and dualended delicate sharp tips.

• Surgical instrument for use in ciliary body detachment

ltem No.		Length mm	
170512	CASTROVIEJO Cyclodialysis Spatula • Dual-ended	150	

Designed with a delicate sharp tip at a 45° angle on a flat handle.

ltem No.		Length
		mm
170331	KUHNT Corneal Scraper	mm 135

Designed to elevate the muscle tissue for dissection and reattachment.

1

Designed with a sharp hook and a polished flat handle. For intraoperative pupil dilation

ltem No.		Length mm
170440	GRÄFE Iris Hook • Blunt	120

## **GASS Retinal Detachment Hook**

Designed with an oval hole that helps securely place a retaining suture on ocular muscles.

ltem No.		Length mm
	GASS Retinal Detachment Hook • Oval aperture: 1.5 mm diameter • Hook length: 13 mm	140

## MEYHOEFER Chalazion Curettes

Designed with a sharp ended curette and a straight, flat, delicate handle. For the removal of chalazions and abscesses.

ltem No.		Length mm
170420	MEYHOEFER Chalazion Curette • Ø 2.0 mm	130
170425	MEYHOEFER Chalazion Curette • Ø 2.5 mm	130

170420

## **GRÄNITZ Eyelid Spatula**

Designed to help protect the delicate structure of the eyelid during incision.

ltem No.		Length mm
170221	GRÄNITZ Eyelid Spatula • Size 1 • 10 mm	77
170222	GRÄNITZ Eyelid Spatula • Size 2 • 16 mm	77
170223	GRÄNITZ Eyelid Spatula • Size 3 • 22 mm	77
170224	GRÄNITZ Eyelid Spatula • Size 4 • 25 mm	77

Wire speculum designed with fenestrated blades to help keep the eyelids retracted.

ltem No.		Length mm
170004	BARRAQUER Speculum	40

## CASTROVIEJO Speculum

- Designed with straight adjustable arms and open blades
- Locking mechanism allows for fine control

ltem No.		Length mm
170008	CASTROVIEJO Speculum	80

## **GRÄFE Eyelid Retractor**

Wire retractor with a fine control mechanism to minimise friction.

ltem No.		Length mm
170009	GRÄFE Eyelid Retractor	90

## **DESMARRES** Retractors

Designed with a smooth curved blunt blade to help manually retract the eyelid.

ltem No.		L	ength mm
170114	DESMARRES Retractor • Size 2		140
170116	DESMARRES Retractor • Size 3		160

170114

## **KNOLLE-PEARCE Irrigating Vectis**

Designed to gently remove the nucleus by using mechanical and hydrostatic forces.

ltem No.		Length mm	
441120	KNOLLE-PEARCE Irrigating Vectis	50	

WEBER Wire Loop		
Designed w	vith a delicate, long loop on a str	aight, flat handle.
ltem No.		Length mm
170464	WEBER Wire Loop • Length loop: 5 mm	130

## **BOWMAN Lacrimal Probe**

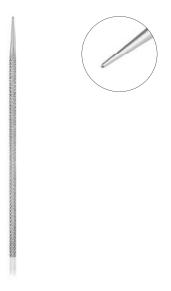

Eickemeyer

- Helps to determine the functional status of the lacrimal drainage system
- Can also be used to help perform a dacryocystorhinostomy

ltem No.		Length mm
170470	BOWMAN Lacrimal Probe • Size 0/00	130

**KELLNAR Lacrimal Dilators and Tubes** 

- Helps to determine the functional status of the lacrimal drainage system
- Silicone tubing can be used to irrigate and aspirate with the dilator

ltem No.		Length mm
170486	KELLNAR Lacrimal Dilator <ul> <li>Left</li> </ul>	85
170487	KELLNAR Lacrimal Dilator <ul> <li>Right</li> </ul>	85
170490	KELLNAR Lacrimal Dilator <ul> <li>Dual-ended</li> </ul>	145
170503	KELLNAR Probe Silicone Tube Inner Ø: 0.3 mm	1,000
170505	KELLNAR Probe Silicone Tube Inner Ø: 0.5 mm	1,000
170507	KELLNAR Probe Silicone Tube • Inner Ø: 0.7 mm	1,000

## WILDER Lacrimal Dilators

Designed with a tapered blunt tip and a round knurled handle.

ltem No.		Length mm
170481	<ul> <li>WILDER Lacrimal Dilator</li> <li>Fig 1</li> <li>Taper length: 20 mm</li> <li>Tip size: 0.5 mm (pointy tip)</li> </ul>	110
170482	<ul> <li>WILDER Lacrimal Dilator</li> <li>Fig 2</li> <li>Taper length: 15 mm</li> <li>Tip size: 0.7 mm (medium tip)</li> </ul>	110
170483	<ul> <li>WILDER Lacrimal Dilator</li> <li>Fig 3</li> <li>Taper length: 10 mm</li> <li>Tip size: 0.9 mm (blunt tip)</li> </ul>	110

## CASTROVIEJO Caliper

Ideal for ophthalmologic and orthopaedic procedures (TPLO).

	ltem No.	Length mm
CASTROVIED Califier 85     Increments: 0.5 mm     Maximum measurement: 20 mm	173554	85

For accurate measuring during ophthalmological procedures. Graduated in inches and mm with thin tips, chrome.

ltem No.		Length mm
170120	JAMESON Caliper • Measurement range: 0 – 80 mm	100

## Lacrinal Cannulae

Suitable for flushing purulent debris through the nasolacrimal duct
Includes Luer hub

ltem No.		Length mm	Form
440605	ANEL Lacrimal Cannula <ul> <li>0.6 x 15 mm</li> </ul>	45	straight
440705	ANEL Lacrimal Cannula • 90° • 0.6 x 15 mm	40	curved
441100	<ul> <li>BONN Irrigating Cannula</li> <li>Robust</li> <li>Ø 1.4 mm (front)</li> <li>Ø 1.2 mm (back)</li> </ul>	35	curved
441101	BONN Irrigating Cannula <ul> <li>Fine</li> </ul>	30	curved
441007	Lacrimal Duct Cannula <ul> <li>Tapered</li> <li>0.6 x 25 mm</li> </ul>	30	curved
440805	Lacrimal Duct Cannula <ul> <li>Olive tip</li> <li>0.6 x 30 mm</li> </ul>	45	straight
440905	Lacrimal Duct Cannula <ul> <li>Olive tip</li> <li>0.6 x 33 mm</li> </ul>	40	curved

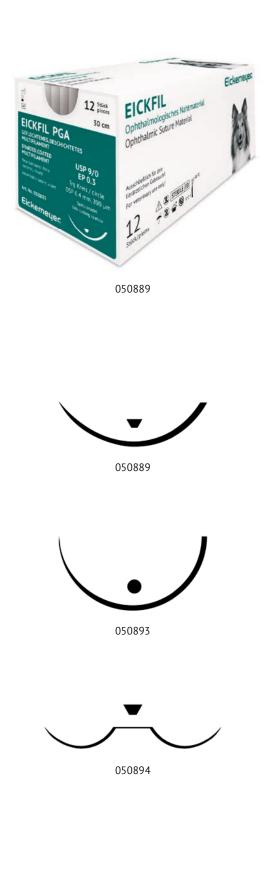

440705

## EickFil Ophthalmic Suture Material – PGA

- Type: Braided and coated multifilament
- Coating: Polycaprolactone and calcium stearate (1 %)
- Colour: violet / beige undyed
- Tissue reaction: Minimal
- Absorption: The hydrolytic action by which the material is broken down results in total absorption in approximately 60 to 90 days. Approximately 50 % of tensile strength remain after 21 days.
- Presentation: Box with 12 individually packed sterile sutures

## Characteristics

• High tensile strength

- Synthetic
- Breaks down by hydrolysis
- Braided structure
- Coated multifilament
- Hermetically sealed packing

ltem No.		Length cm
050889	EickFil PGA • USP 9/0, EP 0.3 • 3/8 circle, DSP 6.4 mm 200 µm • Side cutting spatula • Colour: violet	30
050890	EickFil PGA • USP 6/0, EP 0.7 • 3/8 circle, DS 12 mm • Reverse cutting • Colour: violet	45
050891	EickFil PGA • USP 3/0, EP 2 • 3/8 circle, DS 19 mm, easy pass • Reverse cutting • Colour: undyed	50
050892	EickFil PGA • USP 3/0, EP 2 • 3/8 circle, DS 24 mm • Reverse cutting • Colour: undyed	75
050893	EickFil PGA • USP 6/0, EP 0.7 • 1/2 circle, HR 17 mm • Round bodied taper point • Colour: violet	75
050894	EickFil PGA • USP 10/0, EP 0.2 • 3/8 circle, 2 x DSP 6.2 mm 150 µm • Side cutting spatula double armed • Colour: violet	30
050895	EickFil PGA • USP 9/0, EP 0.3 • 3/8 circle, 2 x DSP 6.4 mm 200 µm • Side cutting spatula double armed • Colour: violet	30
050896	EickFil PGA • USP 8/0, EP 0.4 • 3/8 circle, 2 x DSP 6 mm 200 µm • Side cutting spatula double armed • Colour: violet	45
050897	EickFil PGA • USP 7/0, EP 0.5 • 3/8 circle, 2 x DSP 8 mm 200 µm • Side cutting spatula double armed • Colour: violet	45
050898	EickFil PGA • USP 6/0, EP 0.7 • 1/4 circle, 2 x VSP 8 mm 300 μm • Side cutting spatula double armed • Colour: violet	45

# Ophthalmology

## EickFil Ophthalmic Suture Material - Nylon

- Type: Monofilament
- Composition: Extrusion of polyamide 6.0 or 6.6
- Coating: None
- Colour: black
- Tissue reaction: Minimal
- Absorption: Non absorbable, gradually encapsulated by connective tissue. The thread mass diminishes, approximately 10 % a year by rupture of chemical links (hydrolytic action).
- Presentation: Box with 12 individually packed sterile sutures

Characteristics

- High tensile strength, non absorbable
- Synthetic
- Monofilament with microscopic uniform diameter
- Pliability and softness
- Hermetically sealed packing

ltem No.		Length cm
050899	EickFil Nylon • USP 10/0, EP 0.2 • 3/8 circle, 2 x DSP 6.4 mm 220 µm • Side cutting spatula double armed	45
050900	EickFil Nylon • USP 9/0, EP 0.3 • 3/8 circle, 2 x DSP 6.2 mm 150 μm • Side cutting spatula double armed	45

050899

## EickFil Ophthalmic Suture Material - Silk

- Type: Braided multifilament
- Composition: Braided fibres from the cocoon of the silkworm
- Coating: Waxes Silicone
- Colour: black
- Tissue reaction: Moderate
- Absorption: Silk suture elicits an initial inflammatory reaction in tissues, which is followed by gradual encapsulation of the suture by fibrous connective tissues.
- Presentation: Box with 12 individually packed sterile sutures

Characteristics

- High tensile strength, non absorbable
- Braided or twisted structure
- Coated multifilament
- Hermetically sealed packing

ltem No.		Length cm
050901	EickFil Silk • USP 4/0, EP 1.5 • 3/8 circle, DS 19 mm • Reverse cutting	45

## Fine Surgical Blades

- For ocular, neuro and other micro-surgical procedures
- Superior blades that can be "locked" into the Beaver surgical handle
- 25 per pack

ltem No.		Length mm
101763	Fine Surgical Blade • Size 63 • Sharp on two sides, pointed tip	
101764	Fine Surgical Blade • Size 64 • Sharp on one side, rounded tip	
101765	Fine Surgical Blade • Size 65 • Blade size 11 alternative	
101769	Fine Surgical Blade • Size 69 • Sharp on two sides, rounded tip	
101710	Beaver Scalpel Handle <ul> <li>Finger lock grip</li> </ul>	100
101715	Beaver Scalpel Handle <ul> <li>Handle lock grip</li> </ul>	155

## **Intraocular Silicone Prosthesis**

- Constructed from black silicone with low immunoreactive characteristics
- Helps improve cosmetic results post enucleation
- Can be used immediately after enucleation
- Range of sizes available
- Autoclavable

# Ophthalmology

## AlgerBrush II Corneal Diamond Burr

The AlgerBrush II is a battery powered, handheld, low torque motorised burr. It has been designed to remove foreign bodies from the cornea or sclera of patients.

The burr in this rotary instrument is used as a "brush" rather than a drill and the foreign bodies are thus "brushed" from the eye leaving a smooth surface, which in turn heals much faster than with other instruments that could be used for this purpose.

AlgerBrush II Unit includes 3.5 mm Round Medium Grit Diamond Burr.

\*According to the paper "Veterinary Ophthalmology" ([2013] 16, 2, 83 – 88), the AlgerBrush II has been successfully used to treat spontaneous corneal epithelial defects (SCCEDs) in dogs, in combination with a bandage contact lens.

ltem No.	
170010	AlgerBrush II Unit • Incl. Ø 3.5 mm Diamant Burr
170011	AlgerBrush II Corneal Diamond Burr • Ø 3.5 mm • Chuck attachment included

## **Bausch & Lomb PureVision® 2 Bandage Contact Lenses**

Contact bandage lenses act as a protective shield on the cornea. They permit corneal repair and improve patient comfort by preventing contact between damaged cornea and eyelids.

Recommendation to use for:

Corneal ulceration: to reduce pain and to retain tear film over ulcerated area to aid healing.

Corneal edema: may prevent rupture of epithelial bullae and reduce discomfort caused by abrasion of ulcers.

Adnexal problems: distichiasis, entropion, ectopic cilia - to reduce corneal abrasion until surgery can be performed. Traumatic injury: laceration or perforation.

- High definition optics offers a clear and sharp view
- Excellent stabilisation
- Comfortable contact lens wear for up to 30 days and nights
- Ensures an optimal supply of oxygen to the cornea and makes eyes look clear
- Packaging: 6 lenses per box

## Item No.

173540 Bausch & Lomb PureVision® 2 Bandage Contact Lenses

173443

173446

Cryosurgery (cryotherapy) is the local application of extreme cold for a controlled destruction or removal of abnormal or diseased tissue. The compact, portable CryoIQ® hand-held device uses Nitrous Oxide cartridges as a cryogen with a freezing temperature of -89 °C and once punctured the Nitrous Oxide is delivered with a 50 bar (725 psi) pressure to the lesion which allows the veterinarian a fast and effective treatment.

- Simple pencil type grip for an easy and very accurate application
- Fine metal cap ensures a better shelf life for the cartridges
- Practically painless and bloodless procedure
- Ideal for ophthalmic or dermatological treatments
- Freezing temperature: Liquid freezing, -89 °C
- Level of cold generated is adjusted by the rate at which the metering lever is depressed
- Gas cartridge: 25 g filled with medical sterile Nitrous Oxide gas (N\_2O) and has built-in filter (5  $\mu m)$
- Warranty: 1 year for the applicator, 2 years after product registration

CryolQ<sup>®</sup> DERM plus Liquid device provides mm precision freezing to the treatment site through micro capillaries.

CryolQ<sup>®</sup> PRO Liquid device provides precise treatment of the affected skin areas without damage to the surrounding healthy tissue. CryolQ<sup>®</sup> PRO Liquid device advantages:

- Better for larger lesions
- Inter exchangeable tips
- Higher freezing effect
- Inglier freezing effect
   Longer tips makes it easie
- Longer tips makes it easier to treat hairy animals

## Item No.

<ul> <li>173443 CryoIQ<sup>®</sup> DERM plus Liquid Device</li> <li>Includes: D1 Standard Tip (Ø 1 – 6 mm, 60 μm, L 22 mm), gas cartridge N<sub>2</sub>O (25 g), freeze limiter, case for storage, user guide</li> </ul>

## **Cautery Pen**

- Precise cauterisation thanks to the very fine tip (28 mm)
- Easy to use
- Operating temperature: 600 °C
- Individual sterile packaging
- For single use only

## Item No

173430 Cautery Pen

## Freezpen

The ideal solution for cryogenic treatment of adenom, distichias, epulis, eye lid adenom, meibome gland disfunction, sarcoidose, warts and all kinds of small lesions, tumors and carzinoma. Powerful, precise, practical and can be used without anesthesia. This powerful, ergonomic cryotherapy pen releases a fine jet of nitrous oxide under high pressure and ensures millimeter-precision in seconds. The Freezpen attachments are autoclavable or can be wiped down with a non-corrosive disinfectant solution.

- Cartridges remain sealed for a prolonged time even after opening
- Nearly painless treatment
- No anesthesia necessary
- No long recovery times for patients
- Non or very little bleeding after treatment
- Faster and cheaper intervention
- Lower risk of infection than with surgery

Item No.	
173400	<ul> <li>Freezpen 16G</li> <li>Ideal for regular use and treatment of larger or deeper lesions</li> <li>Includes 6x 16 g N<sub>2</sub>O cartridges, 1 Freezpen attachment each, blue (1 – 3 mm), white (2 – 6 mm), green (4 – 8 mm)</li> </ul>

## Sugi Swabs

- Sugi absorbent materials are especially suitable for dabbing those areas where special care must be taken (e.g. neural structures and ophthalmic tissue)
- Sugi absorbent materials are manufactured from cellulose material
- The material undergoes soft/elastic expansion immediately upon contacting moisture
- The absorptive capacity is approximately 17 times its own weight

ltem No.		Length mm
166520	Sugi Swab • Wedge tip • Set of 200 (10 per pack – sterile)	70
166530	Sugi Swab • Cylindrical • 500 per pack	70

329003

## **EICKEMEYER®** PhacoVet 2.0

The EICKEMEYER® PhacoVet of the second generation is even more user-friendly and powerful. It has been specially designed and developed for the requirements of veterinary medicine. The device can be used for phacoemulsification and vitrectomy in small animals and horses. The system and the associated instruments have been extensively tested and optimised in cooperation with renowned specialists.

Its simplicity and robustness, as well as the focus on core features, make the PhacoVet unique. The compact device can be operated as stationary in the practice or brought to the patient as a mobile unit. Due to the quick and easy commissioning, you are ready to go anywhere immediately.

With service centres in Germany and Switzerland, a professional and fast service is available for spare parts, deliveries, repairs, maintenance work and technical queries.

- Developed and optimised for veterinary medicine
- · Focus on core features required in veterinary
- Simple handling and ease of use ٠
- Robust, compact and mobile
- Transportability and easy commissioning
- Faster and more secure through single-use hose system
- Professional service, repair and maintenance

329003 EICKEMEYER® PhacoVet 2.0

• Incl. Foot Switch and Transportation Case

## **Accessories for EICKEMEYER® PhacoVet**

## **Capsular Tension Rings**

Capsule tension rings made from Polymethyl methacrylate (PMMA) with UV protection, to stabilize the capsule during cataract surgery in dogs.

- Primary or secondary zonular weakness
- Partial zonulolysis
- Pseudoexfoliation syndrome
- Risk of capsular retraction (e.g. uveitis)
- Individually and sterile packaged in an easy-to-use container
- Some sizes (\*) are preloaded in a disposable injector

## Item No

329320	Capsular Tension Ring, 11 mm • For lense size 10.25 mm

## Silicone Oil

High-purity silicone oil is used as an intraocular tamponade in severe cases of retinal detachment in veterinary medicine.

• Sterile packaged in a pre-filled 10 ml glass syringe

## Item N

329340 Silicone Oil • Viscosity 5.000 cSt

## **Collagen Membranes**

Ophthalmological medical device made from type 1 collagen, suitable for corneal repair in animals, for example corneal perforations, ulcers and stromal defects.

Allows the growth of the epithelium of the ocular surface and facilitates the migration of epithelial cells for their revitalization. Before use, the product must be hydrated in a sterile saline solution for 20 minutes. It can then be cut individually for the purpose and stacked in different layers if necessary.

• Dry and sterile packaged

ltem No.	
329350	Collagen Membrane • Ideal for stromal defects • Dimensions: W 2 cm x H 2 cm x D 100 µm
329351	Collagen Membrane • Ideal for ulcers and perforations • Dimensions: W 2 cm x H 2 cm x D 200 µm

# Ophthalmology

## **Staining Solution Trypan Blue**

Veterinary ophthalmic staining solution used as an aid in intraocular procedures.

- Sterile, in prefilled 1 ml Type I glass syringes with Luer lock
- Each box contains five syringes and five needles
- Concentration: Trypan blue, 0.06 % w/v

Item No

329360 Staining Solution Trypan Blue

## SCORE<sup>®</sup> Ergo Support Chair

The SCORE® Ergo Support Chair is specially developed for ophthalmologists. It allows an ergonomic sitting position and offers you comfortable support during long periods of seated work. Special features of the SCORE® Ergo Support chair are its ergonomically shaped armrests. They can be brought close to the body and provide your forearms optimal support. The height adjustment of the armrests allows an upright sitting position when using a microscope or other precision instrument. The Ergo Support helps you to assume a relaxed posture: the neck, shoulders and back are relieved.

- Easy height adjustment, seat and back angle
- SCORE<sup>®</sup> Ergo Shape seat with rounded corners ensure an active sitting position
- Compact lumbar support can be easily positioned in the lumbar region
- Strong aluminium base with large wheels for easy manoeuvrability

## **Technical specifications**

- Height adjustment (with foot control): 52 71 cm
- Working height: 80 90 cm
- Seat dimensions: Ø 40 cm
- Lumbar support (in cm): D 33 x H 23
- Foot cross dimensions: Ø 68 cm
- Armrests (compact triangular shape): 115° rotation, height adjustment: max. 11 cm
- Armrest upholstery (in cm): L 15 x H 3 x D 40 (swinging)

## Item No

610060 SCORE® Ergo Support Chair

## EICKEMEYER® Operating Microscope

- Ergonomically positioned controls allow a comfortable posture when operating for long periods
- 5 magnification steps: 3.6x/5.4x/8.9x/14.2x/22.3x
- Visual field 56 to 9 mm
- Micro-focusing 40 mm, motorised pedal controlled
- Light source delivers bright light, 150 W
- Mobile floor stand with 4 lockable castors, providing excellent mobility
- Tilt-resistant, heavy floor stand with locking castors
- Optional: tube for connection of CCD cameras

## ltem No.

## KAPS SOM® 62 Operating Microscope Advanced

The KAPS SOM® 62 Advanced surgical microscope combines easy and precise positioning, excellent lighting with very good optical image quality. The diverse motor functions, such as focus adjustment, zoom, XY coupling and light control, are carried out via the foot control panel. An integrated backup lamp ensures uninterrupted surgery. Various stereo co-observation devices are available for documentation, teaching situations or the collaboration of an assistant.

- Binocular inclined tube 60°, f = 159 mm
- Eyepieces WF 12,5 x V with diopter compensation
- APO objective f = 200 mm
- Apochromatic 5-step magnification changer
- Motorized fine focusing: 40 mm
- XY coupling 50 x 50 mm
- Foot switch for focus and XY coupling
- Handles
- Filter: Swing in retina protection filter GG 475, Swing in yellow filter against IR and UV exposure
- Illumination: Coaxial cold light fiber optic illumination 15 V / 150 Watt with operational replacement lamp
- Video and documentation options available upon request

## HEINE ML4 LED HeadLight

The HEINE ML4 LED HeadLight is specially designed for professionals who need a perfect view during long surgical operations or treatments. The headband of the HEINE ML4 LED HeadLight offers multiple adjustments points and soft padding ensuring highest comfort and a firm fit.

- Adjustable illumination spot size
- Bright and homogenous illumination
- Stepless light intensity control
- Flexible Power Source Options: 100 % mobility with a choice of cable-free mPack UNPLUGGED head-worn battery or mPack belt-worn battery pack
- Coaxial design ensures a completely shadow-free image and allows for excellent illumination of difficult to see areas
- Comfortable and secure fit. The Professional L headband has multiple adjustment points and soft padding for comfort and stability – even during long examinations

## **Technical specifications**

- Illumination: 65,000 lux
- Colour Temperature: 4,500 kelvin
- LED Operating Life: 50,000 hours
- Spot Adjustment: 30 mm to 80 mm at 420 mm WD
- Angle of Declination Stepless and individually adjustable for every examination
- Headband-mounted Rheostat
- Battery Runtime: 8.5 hours with mPack and 3.5 hours with mPack UNPLUGGED of continuous ON time at full power

Wireless

time

# Ophthalmology

# HR / HRP Optics for HEINE ML4 LED HeadLight

The HEINE ML4 LED HeadLight is optionally supplied with HR / HRP Binocular Loupes including i-View loupe mount. The binocular loupe is fully adjustable for every examiner and for every examination axis. HEINE i-View for HEINE ML4 LED HeadLight provides any angle of view and flips up the optics independently of the illumination beam.

# **HEINE Binocular Loupes**

Your optimal loupe is as individual as your work. HEINE Binocular Loupes set a benchmark for design, high-tech materials and precise manufacturing methods. Various magnifications, working distances, wearing options and illumination systems are available. Experience the difference of getting less tired – even during long procedures.

# Optics

HR: High Resolution achromatic optics with excellent optical qualities for 2.5x magnification.

HRP: High Resolution Prismatic optics with excellent optical qualities for 3.5x, 4x and 6x magnification.

Optics	Working Distance	Field of View	Depth of Field
HR 2.5x	34 cm	90 mm	110 mm
HR 2.5x	42 cm	130 mm	180 mm
HRP 3.5x	42 cm	65 mm	60 mm
HRP 4x	34 cm	50 mm	40 mm
HRP 6x	34 cm	40 mm	30 mm

## Features

- Lightweight: 51 g (HR) or 81 g (HRP)
- Water-resistant
- Independent adjustment of left and right optics for perfect pupillary distance
- i-View loupe mount with flip-up function

# **Mounting Options**

# **HEINE S-FRAME**

- Maximum comfort with a modern, ergonomic design
- Malleable temples and nose pad can be customized to fit any face perfectly
- Innovative light materials weights only 24 g
- Tough polycarbonate protective lenses

## **HEINE Professional L Headband**

- Ideal for spectacle-wearers in combination with their own spectacles
- Fully-adjustable for height and width to fit any head
- Hygienic and comfortable leather cushions
- Optional S-GUARD splash protection

#### **HEINE LoupeLight2**

#### Compact LED HQ Headlight

HEINE has set a new standard which maintains that only the best is good enough, from the selection of materials to processing, from light intensity to dimmability, and from thermal management to a colour rendering index as high as possible.

- LED in HQ
- Compact, lightweight 50 g
- Exclusive aluminium housing protects the optics against dust and moisture to ensure an extraordinary long lifespan and optimal thermal management
- Compact coaxial design ensures a completely shadow-free image and allows for excellent illumination of difficult to see areas
- Replaceable connecting cord with high-quality splashproof threaded connector with a length of 1.5 m. Connects the LoupeLight2 with the mPack mini

#### **Technical specifications**

- Illumination: 55,000 lux
- Colour Temperature: 4,000 kelvin
- LED Operating Life: 50,000 hours
- Spot Size is shadow free and designed to complement the HR / HRP loupes
- Angle of Declination is stepless and individually adjustable for every examination
- Operating Time: 9 hours with mPack mini (in continuous operation at full power typ. 4 hours)

#### **HEINE mPack mini Battery**

- Freedom from cables that tie the user to desk, wall or static power supplies
- Operating time: 9 hours
- Charging time: 4 hours
- Charge status indicator
- Stepless light intensity control
- USB cord with E4-USB Medical approved plug-in power supply
- Simple cleaning (closed housing, no seams at the sides, few edges)
- Compact and lightweight with a weight of just 95 g and dimensions of 44 x 23 x 101 mm the power source can be easily stowed
- Optimised mPack mini belt clip for easy attachment of the power source to the belt or coat pocket
- Li-Ion technology no "memory effect", without worrying about charge level or battery condition
- Integrated rechargeable battery can be exchanged at authorised specialist

#### Loupes & Light System

These inexpensive loupes provide a flexible working distance and are suitable for a wide range of detailed work. The coaxial (LED) illumination ensures a shadow-free visualisation of the whole field of view. The battery case can be comfortably worn on the belt or placed in a shirt pocket.

#### Specifications

- Magnification: 2x
- Illumination: 1,200 lux at 40 cm (working distance)
- Light beam can be adjusted in the vertical plane
- Battery Life: 8 Hours (Normal Mode) / 14 hours (Eco Mode)
- Dioptre adjustment ±3 dpt, right / left can be individually adjusted
- Cable length: 1 m
- Loupe weight: 40 g
- Light System weight: 11 g
- Battery case weight: 60 g
- Dimensions without clip (in mm): L 90 x H 55 x D 29
- Dimensions with clip (in mm): L 90 x H 55 x D 40
- Includes: Hard foam case, 3x AAA batteries

#### ltem No

#### 310600 Loupes

310601 Loupe Light System

#### Loupes with LED Light

This loupe and light system meet the requirements of any kind of surgical operations. It is highly recommended for the first-time users. Excellent price-performance ratio.

- High resolution optics lens with a flip-up design
- One step pupillary distance adjustment
- Adjustable angular viewing
- Multi-coated for: anti-glare, anti-fog, and scratch-resistance
- Loupe is made from strong carbonic acid polyester material

#### Loupe specifications

- Magnification: 2.5x
- Working distance: 320 450 mm
- Field of view: 110 mm
- Depth of field: 90 mm
- Weight: 71 g

#### Light description

- Power: 1 W powerful LEDs
- Brightness: 15,000 30,000 lux
- Colour temperature: 6,000 kelvin
- Life of bulb: 50,000 hours
- Operation time: 5 hours for a full charge
- Charge time: 3 hours for a full charge
- Battery pack: Rechargeable polymer Li-Ion
- Voltage: 100 240 V; 50 60 Hz
- Weight: 78 g (12 g light + 66 g battery and charger)

#### Item N

311103 2.5x Loupes with LED Light

#### **VOLK Aspheric Lenses**

Aspheric surface corrects the aberrations present in more common spherical lenses. Volk's double-aspheric lenses eliminate more distortion for better overall imaging.

Double aspheric lenses are not always symmetric on both sides. A lens with asymmetric aspheres will produce different optical results depending on which side of the lens you look through. The Volk "V" is like an arrow and is designed to point towards the patient.

- Lenses with higher Dioptre power provide a smaller field of view, the higher magnification ensures best performance through small pupils.
- Lenses with lower Dioptre power have a wider field of view lower magnification, and are useful for larger size pupils.

# **VOLK Gonioscopy Lenses**

The G-4 gonioscopy lens with four mirror glasses is a standard gonioscopy lens for static and dynamic gonioscopy with four precisely angled mirrors that offer a full 360° view of the anterior chamber.

The G-6 gonioscopy lens with six mirror glasses is the most advanced gonioscopy lens for static and dynamic gonioscopy. Six angled mirrors offer an excellent panoramic view of the anterior chamber angle compared to conventional four-mirror lenses.

Application

#### **SCHIRMER Tear Test**

SCHIRMER Tear test can be used to measure basal and reflexive tear production in non-anaesthetised eye.

- . Blue colour mark and notch tear indicator (for easier reading of the values)
- Physiological range in dogs: 15 25 mm
- Individually packed sterile
- Pack of 100 pieces

173592 SCHIRMER Tear Test

#### **HEINE BETA 200 LED Ophthalmoscope**

- Ideal for direct Ophthalmoscopy
- Superior aspherical optics now with LED HQ illumination
- Exclusive dustproof design protects the precision optical components and ensures maintenance-free operation.
- LED in HEINE Quality or LED HQ
- 27 single lenses Rekoss Disk from -35 D to +40 D
- 6 apertures
- Patented, unique, stepless dimming from 3 % to 100 % with practical one-finger operation
- No stray light due to the recessed, multi-coated viewing window eliminates distractions
- · Precise one-hand control of the instrument. Ergonomic design offers flexibility while examining
- Suitable for large as well as small or undilated pupils
- Ergonomic design fits the orbita comfortably, and blocks out ambient light
- Full functionality of the BETA 200S LED is guaranteed with BETA Rechargeable Handles and the EN 200 / EN 200-1 Wall Transformers
- 5 years guarantee

300137 HEINE BETA 200 LED Ophthalmoscope Handle not included

#### HEINE Ophthalmic Examination Lamp, 3.5 V

- For examination of the anterior segment and cornea in focal light
- 5 different apertures that help detect erosion, oedema and foreign bodies on the cornea
- Apertures focused at 100 mm working distance

301180	HEINE Ophthalmic Examination Lamp, 3.5 V
301181	Spare Bulb Ophthalmoscope HEINE, 3.5 V

#### WELCH ALLYN<sup>®</sup> PanOptic<sup>™</sup> Ophthalmoscope

Redesigned with a familiar shape and feel, PanOptic direct ophthalmoscopes have a field of view 20 times larger than standard ophthalmoscopes.

- · Greater working distance allows for a more comfortable exam for doctor and patient
- Fundus images with the WELCH ALLYN iExaminer<sup>®</sup> SmartBracket<sup>™</sup> synchronised with the iExaminer<sup>®</sup> Pro App (PanOptic<sup>™</sup> Plus model only)
- · Focus wheel allows smooth and precise control
- Apertures (small, large, red-free, slit, fixation, target, cobalt blue)
- Diopter range: -20 to +25 D adjustable with the focusing wheel
- SureColor™ LED lighting combined with DuraShock technology • Handle not included
- Compatible with all WELCH ALLYN® 3.5V power sources
- Measurements (in cm) L 8 x W 4.5 H 7.5
- Weight: 130 g

#### EICKEMEYER<sup>®</sup> POCKET Veterinary Ophthalmoscope

The EICKEMEYER® POCKET is an innovative veterinary ophthalmoscope in a handy pocket size made in Germany. This is also available as a set together with an otoscope including 3 attachments (item no. 300100 or 300120). See online shop.

- 5 apertures: crosshair, large circle, small circle, semicircle, green filter
- Correction range: +20 to -20 D
- Dimmable LED lighting
- Illuminance: approx. 10,000 lux
- Color temperature: 4,200 kelvin
- Lifespan of the LEDs: approx. 50,000 hours
- Maintenance-free, no lamp replacement necessary
- Automatic switch-off after 3 minutes
- Power supply: 2x AAA alkaline batteries, included

#### **HEINE BETA 200 LED Retinoscope with ParaStop**

The HEINE BETA 200 retinoscope with ParaStop and the most modern multiple coated optics leads to an exceptionally bright fundus reflex, to see the flicker point more easily. ParaStop is a HEINE development for effortless, precise adjustment of the parallel beam path. With ParaStop, searching for the cylinder axis simpler, faster and more precise than before.

- Very bright, precise light strip in HEINE LED HQ quality with a line width of typ. 1.1 mm (ISO 12865 standard < 1.5 mm) and a line length of 35 mm for a very bright, easily visible fundus reflex
- Patented and unique stepless dimming between 3 100 % with practical one-finger operation
- Good orbital coverage and extensive elimination of stray light due to ergonomic shape
- Vergence and stroke rotation controls can be easily accessed using the Thumb operated
- Durable and high quality metal controls maintenance-free, dust-tight, LED with a practically unlimited service life
- Integrated polarization filter eliminates stray light and internal reflexes
- The full functionality of the BETA 200 LED is guaranteed with the current BETA rechargeable handles and the EN 200 / EN 200-1 wall transformers
- Suitable for HEINE 3.5 V rechargeable handles
- Supplied without handle

301139 HEINE BETA 200 LED Retinoscope with ParaStop

#### Asscessory for the HEINE BETA 200 LED Retinoscope with ParaStop

30113901

- Retinoscopy Bars (Luneau)
  - 2 retinoscopy bars in parallel arrangement • One PLUS and one MINUS bar 0.5 - 15.0 D each
  - Storage case included

#### **HEINE Finoff Transilluminator**

Small and light, used to examine the fundus.

Item No.         301170       HEINE FINOFF Transilluminator, 3.5 V         300040       HEINE LED HQ module, 3.5 V         Compatible with:       • Slit Illumination Head (item no. 300035)         • BETA Otoscope Head (item no. 300935)       • BETA Otoscope Head (item no. 300935)         • Illumination Adapter (item no. 300935)       • Replaces HEINE Halogen replacement lamp, 3.5 V (item no. 300038)

#### **HEINE BETA4 Rechargeable Handles and Accessories**

- High quality metal construction for high stability and long life
- Unique locking system. No friction from metal to metal, preventing wear and guarantees a secure fit of the instruments
- Deep discharge protection: Protects the battery from total discharge and ensures maximum operating life
- Li-Ion Technology: No 'memory effect' resulting in longer battery life. Fast charging time.
- Durable: Up to 6 weeks of normal operation without recharging when using LED instruments
- High capacity: More than twice the capacity compared to NiMH batteries
- Charge level indicator in the Bottom Insert (item no. 302552)

302432	Li-Ion Rechargeable Battery • Spare part for HEINE BETA4 SLIM NT Loading Handle (item no. 302536)

#### **HEINE NT4 Table Charger**

- Suitable for rechargeable handles BETA4 NT and BETA4 SLIM NT
- Suitable for recharchable Standard handles F.O. 4 NT, F.O. 4 SLIM NT and F.O. 4 SHORT NT laryngoscope
- Two independent charging wells: complete functionality for one or two handles at a time
- Automatic charging: independent of the state of charge of the rechargeable battery
- Guarantees extended battery life
- Charger switches off when fully charged
- Charging status: Pulsing light indicates charging, permanent light indicates charging completed
- Dimensions (in cm): L 14.2 x H 6.1 x D 6.6

#### HEINE OMEGA 600 Indirect Ophthalmoscope

Discover more. With less weight.

Lighter. Brighter. Better. HEINE kept the best and perfected the rest. Highly comfortable, the HEINE OMEGA 600 delivers a new class of technological innovation, along with the unique visionBOOST for significantly better diagnostic even in dense cataracts.

- Most precise diagnostic, up to the far retinal periphery
- Up to 20 % better view in media opacities with visionBOOST
- Lightest High-End Indirect Ophthalmoscope worldwide
- Long-lasting investment due to its robust design
- Easy disinfection thanks to smoothSURFACE

#### Most precise diagnostic, up to the far retinal periphery

- Significantly better diagnostic due to unique visionBOOST
- Sharpest fundus image due to superior glass optics
- Brightest fundus image with true colour rendering thanks to our unique LEDHQ now in even more natural colours
- Best 3D imaging due to our unique Stereoscopic Adjustment
- Technology in dilated and undilated pupils

#### Lightest high-end indirect ophthalmoscope worldwide

- Best wearing comfort
- Personalized fit
- Adaptable for right and left handed users
- Flip-up function for more convenient patient interactions

#### Long-lasting investment due to its robust design

- Maintenance-free, dustproof optics
- Legendary HEINE durability
- Optics firmly mounted on an aluminium frame
- 100 % Made in Germany
- 5-year guarantee

#### Easy and effective disinfection thanks to smoothSURFACE

- No openings
- Integrated electronics

#### **OPTOMED AURORA® IQ Fundus Camera**

The portable, patented AURORA® IQ fundus camera is a high-end retinal imaging device for the most demanding of needs. The user-friendly technology and large screen for instant display of high-quality retinal images, even with non-dilated pupils, make this device a must-have for every ophthalmologist. The included ocular surface lens has adjustable illumination levels, color imaging and cobalt blue for fluorescence imaging. Choose between autofocus or manual operation as desired.

- Complete set including anterior module
- Non-mydriatic application possible in a darkened room
- Fast image capture with autofocus or manual operation
- Real-time visibility of the retina
- Large screen
- High-quality retinal imaging with high-contrast optical design
- Detailed examination with 50° field of view
- Ocular surface lens for color imaging and cobalt blue for fluorescence imaging
- Adjustable illumination levels
- Transfer to the digital patient file via WLAN and USB
- Low-noise application
- 2-year guarantee (excluding batteries)
- Scope of delivery: AURORA® IQ fundus camera, retinal module, anterior module, 2 batteries, power supply, cleaning cloth, 2 eyecups, charging station, USB cable, client software for image transfer, carrying case

#### **Technical specifications**

- Type: non-mydriatic digital fundus camera
- Field of view: 50° (total field of view: 50 x 40)
- Resolution of the camera sensor: 5 MP
- Optical resolution: >60 lp/mm (ISO10940:2009)
- Manual and automatic focus mode
- Minimum pupil size: 3.1 mm
- Image format: JPEG
- Video format: MPEG-4
- Display TFT-LCD: 4", 800 x 480 pixels
- Memory: 16 GB
- Rechargeable 3.63 V / 2,600 mAh Li-Ion batteries
- Operating time: approx. 2 hours with continuous use
- Connectivity: WLAN and USB
- Color, red-free and IR photography
- Camera dimensions (in mm): W 122 x H 202 x L 98
- Retinal module dimensions (in mm): W 68 x H 74 x L 160
- Anterior module dimensions (in mm): W 71 x H 80 x L 79
- Camera weight: 526 g
- Weight of retinal module: 327 g
- Weight of anterior module: 105 g

#### KOWA SL-19 Portable Slit Lamp

With its rounded shape and curved handle design, the KOWA SL-19 Slit Lamp is even more ergonomic. Furthermore, the weight of the hand-held unit has been significantly reduced.

- LED backlight that can be used simultaneously with the slit light
- LED blue light illumination for flourescence observation
- Light intensity can be adjusted with one hand
- Gap wheel (top), for selecting a desired gap width in the range of 0.1 mm, 0.2 mm and 0.8 mm or spot
- Spot wheel (bottom), for selecting an aperture diameter of Ø 1 mm, Ø 5 mm or Ø 12 mm. The size of the light can be continuously adjusted from 1.5 mm to 12 mm
- Infinitely adjustable slit length (1.5 12 mm)
- Longer operating time: up to 6 hours at maximum intensity
- Available in 5 colours: white, black, blue, green and pink
- Smartphone adapter for digital image documentation for common Samsung and iPhone models sold separately (for suitable size and article number visit online shop)

#### Technical specifications

- Magnification: 10x and 16x
- Working distance: about 80 mm at 16x magnification, about 100 mm at 10x magnification
- Effective field of view: Ø 10 mm at 16x magnification, Ø 15mm at 10x magnification
- Slit width: Ø 0.1, Ø 0.2, Ø 0.8 mm
- Spot size: Ø 1, Ø 5, Ø 12 mm (slit length continuously adjustable from 1.5 – 12 mm)
- Light intensity: 200 20,000 lux (continuously adjustable)
- Power supply: 3x AA batteries (DC 4.8 6.4 V)
- Dimensions (in mm): D 197 x W 107 x H 238
- Weight (without batteries): only 620 g

#### 173690 KOWA SL-19 Portable Slit Lamp • Colour: white 173691 KOWA SL-19 Portable Slit Lamp Colour: black 173692 KOWA SL-19 Portable Slit Lamp • Colour: blue 173693 KOWA SL-19 Portable Slit Lamp Colour: green 173694 KOWA SL-19 Portable Slit Lamp Colour: pink 173698 Charger incl. 4 Rechargeable Ni-MH Batteries 17369801 4 Rechargeable AA Batteries 173695 Transport Case for SL-19 • With foam insert Rigid case Colour: black • Dimensions (in cm): L 40 x W 31 x D 15 17354001 Video Adapter Set · Consisting of video adapter and C-Mount adapter ring • Suitable for SL-15, SL-17 and SL-19

#### KOWA SL-19 plus Portable Slit Lamp with Built-In Camera

The KOWA SL-19 plus is a surprisingly lightweight hand-held slit lamp equipped with a built-in camera. Its features and usage are similar to the SL-19 model without a camera, with the primary difference being that the magnification is exclusively set to 10x.

The SL-19 plus weighs only 730 g (excluding batteries), making it very easy to handle. This design ensures minimal operator fatigue during prolonged use. With a fixed 10x magnification, the SL-19 plus is suitable for various clinical scenarios. A simple hand movement initiates recording. Videos captured by the SL-19 plus can be wirelessly transferred to an iPad via WiFi. Please note that this feature is compatible only with Apple devices.

When transferred to the iPad, the video is automatically broken down into single images. These individual frames can be selected, saved, and further transferred to a PC using a USB stick or WiFi. The recorded images are displayed on the iPad using the KOWA SL-19

plus app (available in the App Store), which provides a user-friendly interface for managing and reviewing the captured data.

- Recording power button: Easily switchable with a simple hand movement
- Light source: white LED
- Ergonomic shape: Designed for comfortable handling during examinations
- Barrier filter B: Used for observing fluorescein under blue light; attachable with a filter tape

#### **Technical specifications**

- Working distance: approximately 100 mm
- Effective field of view: Ø 15 mm at 10x magnification
- Spot size: adjustable slit length from 1.5 mm to 12 mm, with spot sizes of Ø 1 mm, Ø 5 mm, and Ø 12 mm
- Interpupillary adjustment range: 55 mm to 72 mm
- Diopter range: -8 D to +5 D
- Camera field of view: approximately 27 mm to 15 mm
- Effective number of pixels: approximately 2 megapixels
- Wireless LAN interface: IEEE 802.11 a/b/g/n
- Light source: White LED for slit illumination
- Background light: White and blue LEDs in a 3-stage circuit, usable separately from the slit light
- Light intensity: infinitely adjustable from 200 lux to 20,000 lux
  Power supply input: DC 3.0 4.8 V (powered by 3x AA Ni-MH
- batteries or rechargeable batteries); power consumption up to 6 VA
- Battery indicator: flashes orange when battery level is low
- Camera display: shows the operating status of the camera
  Operating time: approximately 8.5 hours if the device is switched
- off after each use and disconnected from the iPad; approximately 3.5 hours at full power without disconnecting from the iPad Dimensions (in mm): D 197 x W 107 x H 255
- Weight (without batteries): 730 g
- Colour: white
- Scope of delivery: Includes the SL-19 plus, barrier filter B and filter tape for attachment in front of the light source; iPad and batteries not included

#### iCare TONOVET Pro Tonometer

The iCare TONOVET Pro tonometer sets new standards in intraocular pressure (IOP) measurement and is aimed at veterinarians who have the highest demands on accuracy and ease of use.

The innovative "Quick Measure" function based on the patented rebound technology enables faster and easier measurement of the IOP and significantly shortens the examination time, while the more responsive test tip and the optimised test tip control ensure improved handling and even more precise measurements. The 200-degree positioning freedom makes the TONOVET Pro tonometer an indispensable helper even in emergency situations. Another advantage is the display that is oriented towards the user. This means that the measured values can be read easily and ergonomically.

- Can be used without local anaesthesia
- Improved user-friendliness
- 200-degree positioning freedom (ideal even for large animals such as horses)
- More responsive test tip
- · Better test tip control improves accuracy
- Display facing the user
- Self-calibrating
- Wireless printing via Bluetooth
- 3-year manufacturers warranty

#### **Technical specifications**

- Measurement range: 7 60 mmHg
- Accuracy: ± 2,5 mmHg (7 30 mmHg) and ± 10% (>30 60 mmHg)
- Repeatability (coefficient of variation): < 8 %</li>
- Display range: 0 99 mmHg (intraocular pressure is estimated outside the measuring range)
- Display accuracy: 0.1 mmHg
- Display unit: millimetres of mercury (mmHg)
- Power supply: 4 x AA non-rechargeable batteries, 1.5 V alkaline LR6
- Dimensions (in mm): L 214 x W 43 x H 104
- Weight: 165 g (without batteries)
- Scope of delivery includes: 4x AA batteries, 100 pcs. probes, probe base collar, wrist strap, instructions, aluminum case

#### iCare TONOVET Plus Tonometer

iCare TONOVET Plus is the veterinary specific tonometer of choice for quick, easy and accurate IOP measurements. The TONOVET Plus is operator friendly and ideal for use on dogs, cats, horses and rabbits. It features an advanced user interface with a clear, large display. Red / green positioning lights help to find the correct plane and distance to the middle of the cornea. The automatic measuring sequence gives you the option to take single readings or all six measurements in repetition.

- Advantage: Can be used without local anesthesia
- Self-calibrating
- Quick, painless and accurate procedure
- Large, easy to read colour display

#### **Technical specifications**

- Measurement range: 10 60 mmHg
- Accuracy: ±2.5 mmHg (10 30 mmHg) and ±10 % (> 30 60 mmHg)

## iCare TONOVET Pet Tonometer

The TONOVET Pet Tonometer offers a cost-effective and user-friendly solution for monitoring dogs' intraocular pressure (IOP) from the comfort of your own home. Thanks to rebound technology, this device ensures reliable, effortless and precise measurements without anesthesia or calibration. Four measurement ranges offer the dog owner, in cooperation with the veterinarian and a treatment plan, a simplified way to monitor their pet's intraocular pressure without worrying about normal daily fluctuations.

- Exclusively for dogs
- Designed for sale or leasing of the device from the veterinarian to the pet owner
- Active cooperation between pet owner and veterinarian
- Can be used without local anesthesia
  Self-calibrating
- Self-calibratingResults are displayed in 4 areas

#### Technical specifications

- Measuring range: 7 60 mmHg

# Ophthalmology

# iCare TONOVET Tonometer

The TONOVET is used for measing IOP based on a rebound measuring principle to make momentary gentle contact with the cornea.

- Self-calibrating
- No topical anaesthesia needed
- Quick, painless and accurate procedure
- Portable as it is powered by batteries

#### Technical specifications

- Measuring range: 1 99 mmHg
- Accuracy: ±2 mmHg (5 30 mmHg) and ±10 % (>30 80 mmHg)
- Display range: 0 99 mmHg
- Display accuracy: ±1 mmHg
- Display unit: millimeters of mercury (mmHg)
- Power supply: 4 x AA batteries
- Dimensions (in mm): L 230 x W 13 32 x H 45 80
- Weight: 250 g (including batteries)
  Scope of delivery includes: 4x AA batteries, 100 pcs. probes, probe base collar, wrist strap, instructions, aluminum case

Application

Tono-Pen AVIA<sup>®</sup> VET<sup>™</sup> Tonometer

With over 40 breeds of dogs and cats featuring a predisposition to glaucoma, the Reichert Tono-Pen Tonometer provides a simple solution to monitor this condition.

The Tono-Pen AVIA<sup>®</sup> Vet<sup>™</sup> is self-calibrating and easy to use.

- Self-calibrating
- Use with topical anesthesia
- Patient can be positioned in any way, therefor ideally used on tall animals like horses
- Fast and accurate IOP measurement with minimal training
- Minimal corneal irritation due to small sensor
- Disposable tip covers to eliminate cross contamination
- Easy to read, digital display
- Measuring range: 5 55 mmHg
- Maintenance-free
- Small size, weight 71 g
- Scope of delivery includes: Battery, 150 protective tip covers (Ocu-Film<sup>®</sup> +)

#### **RETevet<sup>™</sup> Portable ERG**

The RETevet<sup>™</sup> device offers an intuitive interface which allows veterinary ophthalmologists and researchers to perform electroretinograms (ERGs) to measure the retinal function of animals.

## Features

- Small designIntuitive user interface
- Real-time results
- Completely portable and battery powered
- No need for external filters for dim flashes
- All flashes electronically controlled
- Easy USB connection to any PC
- Comprehensive reports in PDF formats
- Anaesthesia is optional (based on the patient)
- Multilingual interface in 17+ languages

#### **Technical specifications**

- RGB LED technology
- 15 million colour combinationsSize: 10.5 cm x 15.5 cm
- Weight: 240 g
- weight: 240 g
- Scope of delivery includes: RETevet<sup>™</sup> device, docking station, 6 jet electrodes, 10 needle electrodes, dust cover, 3-plug electrode lead, USB cable, power adapter

  - W 315 mm x D 230 mm x H 140 mm
  - Weight (empty): 1.05 kg
- Weight (full): 1.95 kg

## cPLR Tester

cPLR (Chromatic Pupil Light Reflex) Tester is a precision Red and Blue light source for rapid screening of retina and optic nerve function. Pupillary response depends on the Blue 480 nm and Red 630 nm wavelengths.

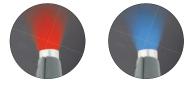

#### Technical specifications

- Red light wavelength: 630 nm
- Blue light wavelength: 480 nm
- Nominal light intensity 200 kcd/m<sup>2</sup>
- Device switches the light OFF after 25 sec automatically (auto power OFF after 60 sec)
- Scope of delivery includes: batteries (7.4 V Li-Ion 800 mAh) and smart battery charger
- Dimensions (in cm): L 19.0 x H 4.5 x D 8.6

#### Item No

173670 cPLR Tester

#### **Anatomical Eye Model**

The anatomical eye model consists of 6 dismantled parts. The eyeball can be dismantled into 2 parts to make the internal structures visible. The lens and vitreous body can be removed from the eye model and viewed more closely. Thanks to the clear, colour-separated representation of the eye skin, eye muscle attachments, retina with the yellow spot, optic nerve and blood vessels, the model eye is ideal for training and study as well as patient education. The eye model can also be used as a nice inventory in the veterinary practice.

• 6-piece model with lots of details

- Eyeball with muscle attachments and optic nerve
- Carefully painted structures
- Vitreous body, lens, iris and cornea can be removed individually
- Includes plastic base
- Dimensions including base (in cm): H 16 x W 13 x D 13

#### Item No

909040 Anatomical Eye Model

902605

#### Vacuum Pillow – U shaped

- U-shaped
- Ideal for positioning during eye surgeries
- Made of durable orange PVC
- With soft edges
- Dimensions (in cm): L 39.0 x H 4.5 x D 29.0

#### ltem No

Robust, impact-resistant plastic

#### **AESCULAP Isis Cat Clipper**

The AESCULAP Isis cordless clipper is ideal for preparation for small areas (forelimb, head and neck) when taking bloods, biopsy or for hard-to-reach areas.

- Silent, low vibration
- Ergonomic design
- Cutting width: 24 mm
- Cutting length: 0.5 mm
- Li-Ion battery: runtime up to 120 min / approx. 90 min charging time
- Charge indicator via charging station
- Weight: 120 g (incl. battery & blade)
- Scope of delivery: clipper, blade (carbon blade cannot be sharpened), charging station, attachment comb (adjustable to 4 different cutting lengths, 3 – 6 mm), brush, AESCULAP oil, instructions

#### 902605 **AESCULAP** Isis Cat Clipper 902601 AESCULAP Isis Clipper Blade • Carbon blade (cannot be sharpened) 902606 DLC Shaving Head TG608D for Isis • High quality shaving head made of AESCULAP carbon steel / carbon steel • DLC (Diamond like Carbon) surface refinement offers many advantages: better cutting performance, less wear, longer service life and less maintenance due to dirt-repellent surface • Cutting width: 24 mm • Min. cutting length: approx. 0.5 mm
